ADDITIONAL SERVICES

Home Staging

FURNITURE PURCHASE

Cullum Design can offer a purchase option working to a tailored design and budget. Not your average furniture package, that makes your property look generic, our services are for those wanting their properties to stand out.

WINDOW TREATMENTS

Working with professionals from bespoke curtain makers, ready made curtains, fitted shutters to privacy blinds manufacturers, we can advise on window treatments to assist in getting your property market ready. Often our clients prefer to leave to the purchaser, but in some cases, especially with lettings, there is a requirement to window treatments.

DECORATING AND PAINTING

Working with a team of painters and decorators, the changes that can be enhanced by some painting and repairs are equally as important as staging. This is a service particularly useful for properties that have been tenanted and need a refresh prior to staging.

FURNITURE REMOVAL

Our team can remove any unwanted items from the property prior to staging.

It's worth considering all aspects of interiors and exteriors prior to launch and our design team are happy to do a site visit and advise accordingly.

Cullum Design's passion for interiors & property means that for 30 years we have been transforming empty property into interior styled homes; working with property owners & developers who understand our core ethos of delivering exceptional service with uttermost professionalism and discretion.

Let us help you achieve a successful sale on your property.

Testimonials - please take a look at our 32 Five* Google reviews [HERE](#)

The quality of furniture and attention to detail were excellent. I'm convinced Cullum really made a difference to the time it took to sell our property. Marc K

I used Cullum design to stage my property after initially launching the property empty. I immediately saw renewed interest and ultimately multiple offers that lead to the sale at asking price. The quality of furnishings and design as well as the service was impeccable, highly recommended! Neil H

Natalie and team did a fantastic job staging our property. From the actual furniture used to the placement of it to create a certain flow was well thought out. Natalie is very personable, efficient, communicative and responsive to feedback. We now have a sale agreed and I am certain the staging was a key reason for that. I would highly recommend Natalie and Cullum Design to anyone wishing to put their property in the best possible light and have a highly probable chance of achieving an optimal sale price. Nim D

I was very skeptical about the whole concept of house dressing but, working with Nathalie of Cullum Design, we had a really great experience and the house sold quickly. I had a very clear style of what I wanted for my house and Nathalie understood what I meant and accommodated all my request. I will certainly use Cullum Design again in future and I very highly recommend them!! Francesca M
